

March 2023

Message from the President

Dear members,

February, as usual, has been a busy month for bridge events. Many of you played at the Gold Coast Congress and had a chance to catch up with other SBAU players. Our hospitality evening saw almost 60 members join Committee members Chris, Suzi and Tony at the Kurrawa Surf Club for a fun evening. StepBridge VP Chris Larter attended the Presentation Dinner Dance and presented the StepBridge Shield to the winners of Gold Coast Congress Open Teams Championship.

It was a passionate group of Bridge players who attended the ABF Sub committee's Open Meeting early Sunday evening at the Gold Coast Congress. The mood of those present was incredibly positive towards Online Bridge. Thank you to all those members from StepBridge who were able to attend after a busy day. We also had three StepBridge committee members present. Those who spoke mentioned the pleasure they received from meeting new Bridge players from all over Australia, something not possible before Online Bridge. They also expressed great appreciation of the way in which Online Bridge enables the many people who love Bridge to take part when in so many cases, they do not live close to a Bridge Club, nor have transport to get to one, or if they have limitations on their ability to leave their homes - to do so. It was so nice to hear that they found the ability to play at different times so convenient for them, especially with regard to evening sessions. Where to from here? Well the mood of the meeting was clear. Online Bridge was here to stay and should be encouraged. There was also the view put forward that Online helps make face to face Bridge survive and function more effectively especially as technology is advancing. We at StepBridge have always been of the need to provide the best possible service and experience for our 2,000 Club members. IT will enable us to continue to do so. Thanks again to those who completed the Individual ABF survey regarding Online Bridge. A special thanks to those who responded to my email with their thoughts. Your kindness and constructive comments were most appreciated. We note that the ABF sub committee has apparently reached their conclusions as to the future of Online Bridge in Australia and will be presenting a report to the ABF Council in April. We await the outcome with great interest.

Our Online Congress calendar is starting to fill up and events will be advertised from this week. I know these events are always looked forward to with great anticipation. Novice players remember this event is for you. Come and support the Novice Congresses. It is a fun day and great experience for you with MPS and prizes up for grabs.

The Day for Türkiye fundraising event has filled me with great personal joy. The support from players and from our Club and StepBridge International has raised in excess of \$17,000. I will talk about the crisis in my Türkiye Blog. However I can tell you that our funds will provide 5 container homes for 5 families to help them through this horrendous time. Thanks for being the wonderful people that you are and supporting this very worthwhile cause.

Happy Bridging, *Sarah Zoral*

Novice Corner

Welcome everyone to the 2nd edition. Thank you to everyone for their positive feedback.

How did everyone feel playing their first competitive bridge session? The most noticeable thing I noticed was the speed of the game, all clubs have a time allocation to play a select number of boards, which is approximately 6 minutes per board.

We were taught in our lessons, to **Analyse** the lead, **Review** the bidding, **Count** losers or winners, and **Draw** or **Delay** using trumps (ARCD). We were told how important this is and it can be the difference in making your contract or going down. How do you find the time to do this when you have 6 minutes to play a hand? When playing against experienced players who play fast and do not like slow players, it is difficult to find the time to do ARCD.

Does your local clubhouse provide supervised play? Supervise play is a good place to refine your bidding, practice new conventions, and allow time to practice ARCD before playing your hand. The other place is on StepBridge in the novice tournaments, if you continue to practice this it will become easy and take less time to do.

It is important to be patient and kind to your fellow novice players. Some of us need to be reminded about this, even myself. I struggle with the above myself, I tend to rush and play the hand quickly without doing ARCD. What I have found helpful is to STOP and look at the first card before playing from the dummy hand, and start doing the ARCD.

In StepBridge if you start the bidding process before the 5 minute reminder, you will be allow to finish the last hand. If you have not finished the second last board after the 5 minute reminder, you will be given an artificial result.

Artificial results are given in the following manner:

- 40% is given to the pair who is the slowest in their bidding and playing.
- 60% is given to the pair who is the fastest in their bidding and playing.

It is our intention to have this page in the monthly newsletter from here on, so I encourage each of you to submit any ideas for the monthly newsletter.

I know it is daunting to find a partner, as a new player coming into our community. If that is the case for anyone in our community, please let me know and we will post your name on this page and we will endeavour to find you a regular partner. If you would like to be a part of the Partnership Finder List email me, your Username and contact details that you are happy to have published on our page.

I would like to introduce you to the following new novice players that started to play in February, please be supportive and friendly to this player.

Holiday Blog

Sarah's Turkish Adventures - continued

February 6 2023 will be remembered for the start of seismic activity that has caused catastrophic events and damage that is beyond comprehension in southern Türkiye. A series of major earthquakes and aftershocks.

At the time of writing this blog the death toll has climbed above a staggering 50,000 people. More than 108,000 people were injured. More than 160,000 Turkish buildings containing 520,000 apartments have either collapsed or been seriously damaged. This is the worst disaster in this country's modern history. Whole cities destroyed. More than 2 million people are registered as having fled the region. Since the initial quake there have been 11,000 aftershocks recorded. Several major earthquakes have been reported since the fateful day on February 6 and buildings continue to topple and crumple like a pack of cards.

You cannot begin to imagine the human tragedy that is still unfolding. 1.5 million people are homeless and more than 500,000 homes need to be rebuilt. More than 865,000 people are living in tent cities and 23,500 are already in container homes. 376,000 people are in student dormitories and guest houses outside the earthquake zone. The temperatures are still freezing in many areas and people have been camping on the street with maybe a blanket and a small fire to huddle around. People are faced with daily queues for food and wait for the mobile bus equipped with showers to come to their area to have a shower. Toilets are in very short supply and words like cholera and hepatitis A are being bandied about as likely outcomes.

The individual stories are so heartbreaking it is hard to witness let alone imagine what it is like to be in the middle of the crisis. The government has been continually accused of lax safety enforcement measures, especially since the 1999 earthquakes that devastated so many areas near to where I am living. New building codes were introduced and these codes have not been policed or adhered to. Modern buildings supposed to have been capable of withstanding 8.0+ magnitude earthquakes have disintegrated and collapsed. Turkish authorities have launched a probe into 612 individuals responsible for buildings levelled by the deadly earthquakes and already arrested 184 suspects.

There is a major problem to demolish and remove the debris. The estimation is close to 100 million cubic metres to be removed. 70 million truck loads. The nearby farming communities are very concerned as this waste is full of asbestos and the ensuing asbestos dust is going to blow across crops and farming lands.

In Istanbul particularly, citizens are terrified and demanding investigations into the building integrity of schools etc. Initial investigations show buildings compromised and concrete columns are drilled to expose gaping holes and rubble inside the columns that should be solid concrete and reinforcing bars.

Personally, when I am walking in town, I am constantly looking above my head at the decrepit buildings around me and thinking if there is an earthquake now.....

On a positive note in all of this misery. I saw a HuskyX dog pulled from the rubble 23 days after the building collapsed. He appeared to be fine if very thin. A few nights ago a drone was sent in to inspect a severely damaged high-rise and it discovered a number of cats trapped. The rescuers went up in scissor lifts and coaxed the starving cats and brought them down. Another case of a person trapped for 14 days and above him were some heavy drapes that were wet from the rain and snow. This person survived by sucking the curtains for moisture.

The monies that we have collectively raised will supply container housing for 5 families. These families could be forced to live in these containers for up to 2 years. The psychological trauma these people are enduring could be with them forever. Thanks for your thoughts and actions in allowing us to do something positive for some deserving families.
